

Welcome to Hopetown Hospital. We have the best doctors and nurses in the world who can make you feel better very quickly.

You don't have to be scared at all. We will take very good care of you.

The doctor and nurse will have to take your temperature and measure your blood pressure. You may also have to have a needle or even a drip. If so, just relax, look the other way, and it is over in no time. Do remember that it is all done to make you feel better.

Your mum and dad can stay with you.

We will give you nice food and plenty to drink.

You will meet new friends that you can play with. Yes hospital is fun!

We look forward to meeting you!
